

# INVESTING IN QUALITY EXPANSION AND IMPROVEMENTS

## ***Use your quality dollars wisely...***

As stimulus monies are directed to early childhood programs, it is important the investments be wisely made, because as the old saying goes... "more is not always better."

## ***Make no mistakes...***

Let the specialists at Training and Technical Assistance Services at Western Kentucky University use their creativity, insight, knowledge, and skills to help you design and implement your expansion and improvement goals in accordance with Head Start guidelines and standards.

## ***Please call us if we can help your Head Start Program to...***

- implement expansion plans to serve more children
- provide training/education for administrators, teachers, aids, and other staff
- refine your program for extended day or extended year services
- establish training and technical assistance activities to make program improvements
- plan appropriate indoor and outdoor environments, and ensure they are accessible to children with disabilities
- develop program and community-wide strategic plans to deal with programmatic changes
- evaluate curriculum options and assessment tools
- hire new staff, develop interview protocols, and participate on the interview team
- Provide resources for additional quality improvements
